The Sony HDW-F900 is the most advanced electronic motion picture camera available. With credits like Star Wars and Spy Kids - it's has proven itself to be suitable for a wide variety of projects.

The F900 is called the "World Camera" because it can provide images that meet or exceed ANY current or planned future standards. Conversion to NTSC, PAL, 60i HD, 50i HD, 24fps Film transfers and more.

All that flexible technology is housed in a convenient 20 pound package that can be configured as a light-weight hand-held camera or a fully accessorized studio configuration for a feature or commercial.

Electric Light & Power has established a strong workflow with HDTV acquisition. We know what works and what doesn't. We also know film and how it relates to the electronic formats. If you have questions or concerns about ANY aspect of HDTV, call us, we can set up a demonstration putting the needs of your production first.
